

JACKY (RUI) PAN

914-817-7737 | rp556@cornell.edu | <https://www.linkedin.com/in/jacky-pan-65756430a/>

EDUCATION

Cornell University

Ithaca, NY

Bachelor of Arts in Information Science, Minor in Game Design

Aug. 2023 – May 2027

- Cumulative GPA: 3.88
- Related Courses: Object-Oriented Programming and Data Structures, Web Design and Development, Consequences of Computing, Design Visualization and Graphics, Computer Game Architecture, Sound Design, Intro to IOS Development

EXPERIENCE

Dot Point Capital

Jan 2025 – Apr 2025

Software Development Engineer Intern

Hong Kong, China

- Designed a Workflow using an LLM with 11 prompts using FastGPT on Confidential Information Memorandum Teaser generation, significantly facilitating project pitching towards firm's partner.
- Tested API endpoints with Postman to ensure stability, successfully integrating the LLM Models into business web app backend with consistent JSON responses with data for graph generation and front-end information renderings using Spring Boot and React Frameworks.
- Translated content and linked 20 JSON files to support dynamic bilingual rendering for the landing page.

Tradox Tech

Dec 2024 – Jan 2025

Full Stack Software Development Engineer Intern

New Jersey, NY

- Designed a pipeline with 400+ lines of code using requests, pandas, and psycpg2 to scrape live financial news data into a Postgres database and applied sentiment analysis with Natural Language Processing using NLTK.
- Developed Web App interface with Flask and HTML, CSS, and JavaScript with 1700+ lines of code, allowing user authentication, account password reset, interactive 500 data retrieval, and interactive data tree-map graphics.
- Implemented a trading strategy using Backtrader with Interactive Brokers' API for real-time testing in a paper trading environment, including strategy development, API integration, and live performance monitoring.

Cornell University — Bowers College of Computing and Information Science

Jan 2025 – Present

Undergraduate TA: Intro to Computing

Ithaca, NY

- Tutored proficiently for 300+ students through weekly office hours. Actively participated in online forums for 10+ hours per week and answered 100+ threads to address questions in Data structures, algorithms, testing, architecture design and functionality debugging.

PROJECTS

Fachoi Studio: Toymare

Jan. 2025 – Present

Co-Project Manager, Programmer, Artist

Ithaca, NY

- Developed a $\frac{3}{4}$ top-down perspective action + puzzle shooter game with Java using LibGDX with a team of 7 that integrates cooperative puzzle solving and third-person shooting.
- Implemented a comprehensive Finite State Machine (FSM) to control player and enemy behaviors.
- Engineered a robust level system reading Tiled-generated JSON to build 16 levels; designed 12 levels optimizing player learning curve and pacing.
- Designed all UI art assets (menu, level selection, gameplay, win/lose screens, cut scenes) with Procreate and AI tools; implemented animations with Java FSM for a polished user experience.

DGA Studio Team Project: Grub Bug

Aug. 2024 – Present

Character & Animation Artist

Ithaca, NY

- Led ideation and system-level game design, creating balanced mechanics and gameplay loops.
- Designed and hand-drew the main character's 8-directional animation in isometric view; led design and animation for 3 distinct NPCs using Adobe After Effects.
- Conducted 15-hour structured playtesting to gather feedback and iteratively improved user experience.
- Collaborated with UI/UX lead to refine interface (menu, dashboard) in Unity; directed and produced 6 cutscenes with narrative cohesion for Steam release.

TECHNICAL SKILLS

Languages: Python, Java, HTML, CSS, JavaScript, Swift, MySQL, C#

Engines & Frame Works: Flask, JSwing, LibGDX, Unity, numpy, Matplotlib, OpenCV, GDIAC, pandas, bs4, nltk, plotly, pygame, requests

Developer Tools: Git, VS Code, Visual Studio, IntelliJ, Jupyter Notebook

Designer Tools: Rhino 3D, Procreate, Adobe Suites, Blender, Unity, Sketchup, Resprite, ProTools

External Specialties: UI/UX Design, Game Art (Character Designs and Animation), Illustration, Sound Design
